

Obituary.

MRS. EVE ANN SMITH

The funeral service of Mrs. Eve Ann Smith, an old-timer, who passed away after being in ill health for some time, in the Wainwright Hospital, on June 9th at the age of 73 years. The funeral was held in the Hardisty United Church, Rev. T. N. Hughson officiating.

The late Mrs. Smith was born on August 8, 1864 at Maryville, Mo. U.S.A., where she resided for some time and became a member of the Methodist Centenary Church. She was united in marriage on December 6th, 1882, to Charles Fremont Smith, who predeceased her 16 years ago. Mrs. Smith with her husband and family moved to Bawlf in 1907 and after residing there for one year they homesteaded and moved north of Hardisty, where she resided until her death. She leaves to mourn her loss, William of Hardisty, Ralph of Kindale, Dallas of Genesee. Also 14 grandchildren and three great-grandchildren.

The pall-bearers were all old-timers Earl Tomlinson, Wm. Tomlinson, Geo. Clapp, J. R. Clarke, Charlie Miller and Roy Eynson.

Floral tributes were received by the Family, Mr. and Mrs. P. J. Harvey and family, Mr. and Mrs. Jas. Bronson and Don, Mr. and Mrs. Roy Bronson and family, Mr. and Mrs. Geo. Stuart and family, Mr. and Mrs. Reber and family, Mr. and Mrs. Geo. Hoffe and family, Mr. and Mrs. Adam Bergquist and family, Mr. and Mrs. T. J. Bronson and family, Mr. and Mrs. C. Burrows and family, J. R. Clarke and sisters, Mr. and Mrs. Ted Berreth and family, Mr. and Mrs. Richmond and Mrs. Porter, Mr. and Mrs. Sam Stokke and family, Mr. and

Mrs. C. W. Miller and family, Mr. and Mrs. F. C. Wiese and family, Mr. and Mrs. Earl Tomlinson and family, Mr. and Mrs. C. W. Hockett and Mrs. I. Hockett, Mr. and Mrs. R. Haring and family, Mr. and Mrs. Chas. Anderson, Mr. and Mrs. Chas. Rogers and family, Mrs. Hinky and boys, Wm. Tomlinson, Mr. and Mrs. Lewis Reber and family.

CARD OF THANKS

We wish to thank our many friends for the kindness and floral offerings extended us in the recent bereavement of our dear mother.

Wm. Smith.
Ralph Smith and family.
Dallas Smith and family.

SOCIAL CREDIT PICNIC

Come to the picnic on the Albert district picnic grounds sponsored by the Local Social Credit Group on June 22nd. A speaker will be on hand and a full line of games will be run off. Refreshment booth on the grounds, and bathing in the lake.

Bring a basket of eats and come prepared to have a good time. All are invited. Dance in Albert School in the evening.

Committee—Floyd Fuder, V. Hutchinson and A. E. Peterson. Free Admission.

Moved by Mr. Collette that the correspondence from Elk Point re Young relief be tabled as this council have the integrity in the M.D. Laurier in this relief matter. Crd.

Moved by Mr. Dalton that the Secretary write the Divisional Engineer re Weed Menace on Highway No. 14 from the Battle River Bridge to Wainwright as advised by the Dept. of Agriculture re 'Weeds on Highway' letter of May 31, '38. Crd.

Moved by Mr. Steele that the Irma S.D. 2435 assessment of \$550.00 on Municipal Lot and Office be accepted. Crd.

Moved by Mr. Collette that the committee's report re proposed sub-way at Mileage 15.6 C.N.R. be accepted and that this council approve of Plan R 1039-3 as submitted by C.N.R. June 8, '38 and that the Reeve and Secretary sign tracings. Crd.

Moved by Mr. Collette that the correspondence from C. G. Purvis re Dr. McBride and Dorothy Smith be received and filed. Crd.

Moved by Mr. Blakely that Secretary notify the Canadian Red Cross Society re Donald McLean that a grant of \$50.00 be extended for treatment of the case and the same be paid by the Treasurer when satisfied with arrangements. Crd.

Moved by Mr. Steele that the report of the Secretary re J. G. McKie medical be approved. Crd.

Moved by Mr. Blakely that the report of Mr. Dalton re the leasing SE 28-45-7 be accepted. Crd.

Moved by Mr. Dalton that the Secretary draw up a lease with F. Cartier to lease the SE 28-45-7 W4th for the amount of the 1938 taxes, lease falling due March 31, '39, payment be made on or before Dec. 15, '38. Crd.

Moved by Mr. Dalton that Clifford Smallwood be appointed Assessor for the M.D. General Assessment. Motion lost in the negative.

Moved by Mr. Collette that J. C. McLean be appointed assessor for the General Assessment. Motion lost in the negative.

Moved by Mr. Dalton that C. Smallwood be appointed Assessor for the General Assessment. Motion lost in the negative. Crd.

Moved by Mr. Blakely that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$900.00 deemed necessary for Municipal purposes. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Collette that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Dalton that the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$295.68 deemed necessary to meet the 2nd 1-2 School Reqs. Crd.

Moved by Mr. Blakely that the Secretary notify the Official Receiver of the F.C.A. Act, Wainwright re applicants proposals that the council is prepared to give due consideration for consolidation of taxes when such applications are received in compliance with the Tax Arrears Consolidation Act and Amendments. Crd.

Moved by Mr. Blakely that relief be extended to Geo. McLean for \$15.00 until July 14, '38. Crd.

Moved by Mr. Blakely that 51 per cent of the Estimated Receipts for 1938 be allocated to each division as per assessed value for Public Works. Crd.

Moved by Mr. Collette that the Secretary deduct from the Public Works allocation of divisions any over expenditures of 1937. Crd.

Moved by Mr. Collette that the report of Mr. Smallwood re Eve Smith hospitalization and medical be accepted. Crd.

Moved by Mr. Stewart that the report of Mr. Steele re W. Lawson infectious condition and action taken be approved and accepted. Crd.

Moved by Mr. Blakely that the Secretary notify the Wainwright Hospital that council do not consider Ray Wilson indigent. Crd.

Moved by Mr. Blakely that the report of Messrs. Collette and Dalton re Hazel Wakefield be accepted. Crd.

Moved by Mr. Dalton that the Secretary notify the Wainwright Hospital that council do not consider C. Massie indigent. Crd.

Moved by Mr. Collette that Tax Consolidation re E 1-2 28-44-9 Credit Foncier be approved. Crd.

Moved by Mr. Collette that correspondence from the Wallbridge Cairns and Co. re account of Dr. Dobry re D. Smith be tabled and Secretary advise said company that the same will be taken up at the next meeting. Crd.

Moved by Mr. Collette that the following accounts and pay sheets be passed and paid.

"MEN AT WORK!"

The most cheerful sign on the road

"MEN AT WORK" is an encouraging, cheerful sign upon the highway.

It is the happiest sign on the business highway too. Business enterprise, making wise use of banking service, is the mainspring of employment.

The contractor responsible for that "Men at Work" sign gets the job of building that stretch of highway by being the lowest responsible tenderer.

Not always does he have the ready money to buy all the materials, pay wages and build it out of his own resources. He goes to the bank and, having assets and a good reputation, he negotiates such advances as he may need.

He orders materials, sets men to work. As the job proceeds, engineers' certificates enable him to collect from those with whom he contracted, and the work goes on.

The highway finished, the bank is repaid. Such repayments enable the bank to supply credit to other responsible borrowers.

A manufacturer gets a large order, with an early time limit for delivery. With only a hundred men, his factory cannot turn out the articles within the time required. With more men he can do it—but he lacks sufficient cash.

Operating his factory, as a going concern, with a profitable order and having a reputation for integrity, he asks the bank to lend him what he needs to pay wages.

The bank makes him a loan. He takes on more men. They get wages. The goods are turned out, delivered and paid for. The manufacturer repays the bank with the agreed interest.

He has his profit and can spend some money developing new business to keep his men employed.

How does a bank make these advances—where does the money come from?

Banks, having branches throughout Canada, mobilize the surplus funds of millions of depositors, large and small, and, based upon them, make credit available throughout the country as may be required.

Millions of little sums represent the toil, production and lifetime savings of Canadians—your fellow-citizens.

Safeguarding these deposits is the bank's first care.

Deposits of \$1,000 or less—most of them much less—are owned by 3,770,000 out of Canada's 4,084,000 savings depositors. The total of all bank savings deposits in Canada is nearly \$1,584,000,000; the average savings deposit in a bank is only \$387.

Widely safeguarded by Canada's banks, these deposits furnish credit that keeps "men at work" when used by Canadian business and industry—producing new realizable

wealth from Canada's great resources. The country and all its people benefit.

In the field of business deposits, out of an average of 660,000 "current" accounts, 596,000 amount to \$1,000 or less.

Savings deposits are, primarily, the basis on which banks can make loans.

Only the confidence of the people and their willingness to leave their money on deposit, enable a bank to lend money—and at small profit-margin to itself—serve the community.

We have mentioned the contractor and the manufacturer. The same process stimulates employment throughout the whole fabric of production, industry and commerce.

Loans to agriculture and for marketing agricultural products totalled in 1937, \$88,294,000—9.0 per cent. of all ordinary bank loans shown on the return to the Minister of Finance, October 31st, 1937.

Of this sum \$57,490,000 went to farmers, and the balance to fruit raisers and \$30,804,000 to grain dealers, seed merchants and grain exporters.

Other bank loans went to municipalities and school districts; wholesalers, retailers, manufacturers of dealers in lumber, pulp and other forest products; fishermen; fish packers and cures; public utilities including transportation companies; stockbrokers and bond dealers; provincial governments; mining men; churches, parishes; hospitals; and to charitable and religious institutions.

Canada's chartered banks defend and protect the safety of the funds of depositors—the millions of thrifty souls we have described, whose life-savings they entrust to their banks.

No Canadian depositor, even through the world-shaking events of recent years, has had to fear for the safety of a single dollar lodged with Canada's chartered banks.

The funds of depositors are their own—not a reservoir from which everybody may draw at will for any and every new financial experiment.

The Annual Slaughter

With the summer months coming on when all mankind will be awised, an appropriate and seasonal reminder of the terrible and mounting death toll attributable to the automobile in the hands of the careless, the reckless or outright criminal driver, was recently the subject of a press interview by Deputy Commissioner D. Ryan, of the Royal Canadian Mounted Police.

As head of the force which polices the Western Canadian highways, there is no better authority on the subject of road accidents and control measures than Colonel Ryan, and when he speaks out and accompanies his warnings with recommendations for measures of a preventive character, his comments are worthy of attention and consideration.

Armed with the latest figures of casualties on the North American continent, Col. Ryan points out that last year the automobile took toll of 40,683 lives in the United States and Canada. In other words, enough lives were snuffed out from this single cause to populate a good sized town or small city—the result of carelessness on the part of drivers of trucks and automobiles.

An Appalling Loss

Had all these people been killed at one time in a single disaster both countries would have been staggered and appalled at the magnitude of the loss. The catastrophe would have been regarded in either country as a national disaster. Calls would have been flashed all over the country for aid, people's hearts would have been wrung with pity and their purse strings would have been spontaneously loosened. Troops to preserve order, Red Cross ambulances and supplies would have been rushed into the stricken area and headlines in the newspapers would have screamed the anguish of sorrow-stricken relatives and survivors.

But because these accidents and the toll they exact are scattered over an area of thousands of square miles and are spread throughout the year in innumerable crashes, little heed is taken, and even when annual reports appear revealing the year's total losses, the figures are passed over with a casual glance and a shrug of the shoulders. One or two speeches are made in parliament and legislatures about the monstrosity of the thing and the subject is promptly dropped for another year.

Nothing much is done about it, except perhaps to tighten up the law a little here and there, and the slaughter goes on, not only unabated, but with increasing momentum. Automobile insurance rates are jacked up another notch, and the subject is buried along with the victims.

Carelessness To Blame

Of the total death toll of 40,683 in the two countries, the United States can take credit for 39,243 compared with 1,440 in this country, an average of 327 deaths per million of population in the U.S.A. compared with an average of 131 per million in Canada.

At first glance it might be thought that this is a creditable showing for this country, but when the relative density of traffic in the two countries is taken into consideration, it is very doubtful whether, proportionately the Canadian death toll is any less than that of the United States. In fact, it may be worse.

With this unenviable record as a basis for comment, it is more than interesting to note Col. Ryan's proposals for cutting down the automobile death list. He points out that "practically all accidents can be avoided," and that "it is the careless driver who is mostly to blame for trouble."

On this premise Col. Ryan properly rates the drunken driver as public enemy No. 1 on the highway, and very properly suggests that the drunken driver when convicted should be barred from ever driving again, pointing out that "an intoxicated person operating a car is as much of a public menace as if he were operating a machine gun on the highway."

The other types of reckless and dangerous drivers, Col. Ryan, again very properly suggests, "can be and should be educated in the matter of safe driving," with the addition that "a real service to the public can be education and succeeds, in performing a real service to the public."

The drivers who are capable of reformation through education are categorized by Col. Ryan, as follows: The driver who speeds when his vision is obscured by hill, curve or other obstruction; the driver who tries to beat the train to the crossing; the town or city driver who considers his appointment or game of golf more important than human life, and the night driver who does not dim his lights on meeting another car.

Caution Unheeded

A volume might well be written on each of the foregoing types of road hog, and the misery and suffering they have caused in the past and will continue to cause in the future, unless the warnings of printed and spoken word are heeded better than they have been in recent years.

It is doubtful whether the passage of more stringent legislation will have much effect on the mounting death toll due to carelessness and recklessness at the wheel. As Col. Ryan says, best results can be expected from education and every citizen of the country, whether a motorist or not should take a hand in a campaign to teach drivers that they must no longer drive to the peril of life and limb.

An aroused public opinion is the best insurance policy for safety on the highways of the country.

Becoming More Fluent

At the opening of the Empire Exhibition in Glasgow, King George VI spoke ten minutes, making one of the clearest and most confident speeches since his elevation. His speech impediment was noticeable only twice—when he referred to the exhibition's "palaces and pavilions," and when he said "this new enterprise is the safest insurance against a return of the depression."

Entitled To Refund

Smith, called on his parson. "Is it right for any person to profit by the mistake of other people?" he asked.

"Most certainly not," replied the parson.

Smith brightened as he replied, "Very well, then, perhaps you'd like to return that 7s. 6d. I paid you for marrying me."

Saint Peter (to Scotsman at the portals of Paradise): "Ye cannot enter here! I'm not going to make porridge for you."

The skeleton of the lobster is outside its body, while its muscles are inside the skeleton. 2256

New Acid Mixture

Water Mixed With Acid Used To Increase Production In Oil Wells
Water in which a duck would sink was exhibited at the International Petroleum Exposition at Tulsa. This water is used in oil wells and is chemically treated to make it extra "wet."

The liquid becomes so moist, it was explained, that it would penetrate a duck's feathers all the way to the skin and render the bird too heavy to float.

The water is mixed with acid and pumped into oil wells to increase production. Because of its extreme wetness the water penetrates deeply into the stony formations which trap oil within their pores.

The acid mixed with the water opens the rocky pores and makes new drainage channels to untap oil reservoirs. This "moist moisture" is one of the developments in acidizing oil wells.

Acid is used after oil ceases its natural flow. To date the process has added about 450 per cent. to the production of limestone wells.

TRAVEL MADE HIM CONSTIPATED

Salesman Says Kruschen Keeps Him "On His Toes"

"I am a commercial traveller," writes a correspondent, "and due to endless travelling by train and automobile I find that I become constipated if I do not keep myself internally clean. Kruschen Salts is the only thing that will do this effectively and not interfere with my work. I take a large dose of Kruschen every Saturday night and on Sunday, when I have no work to do, the Salts act on me. On week-days I take a small dose on rising. It is necessary that I be 'on my toes' all through the day, and this is the only way that it possibly can be done."

V. L. Kruschen Salts is an excellent recipe for maintaining a condition of internal cleanliness. The numerous salts in Kruschen stimulate the internal organs to smooth, regular action. Your inside is thus kept clear of those impurities which, when allowed to accumulate, lower the whole tone of the system.

The Unshakeable Force

Religion In World Affairs Would Solve Problems Of Humanity

In the middle of Mussolini's kingdom sits the man they cannot touch. Unfortified, unprotected, he dares to rebuke Hitler for his religious persecutions. He rebukes Mussolini, too, when Mussolini offends him. He is the Pope, Pope XI, eighty years old, leader of 324 million Catholics all over the world. Frail and bed-ridden, he works 22 hours in the day, lives on milk and coffee, only sleeps from two to four o'clock each morning. The dictators may boast of their power. But they can do nothing with the Pope. He represents the force of religion. If we could once restore that force into world affairs we would solve the problems of humanity.—London Sunday Express.

Honored The Losers

Banquet Held For Defeated Mayoralty Candidates In Lakehead Cities

An interesting and as far as we can remember an unprecedented function was held a few weeks ago when the defeated mayoralty candidates in Port Arthur and Fort William were tendered a complimentary banquet by the Independent Order of Foresters. That seems an excellent idea, for men who run for public office show good public spirit and often devote considerable time and money to the contest. Too often men who are unsuccessful in such elections simply drop from sight. After all in our system, there must be losers as well as winners and the good losers should not be forgotten.—Niagara Falls Review.

Safety Belts For Cars

Are Made Similar To Those Worn By Airplane Passengers

A safety belt, similar to the kind now worn by airplane passengers, designed for use in automobiles, has just been announced.

Made of heavy canvas, the manufacturer says the belt will prevent people being thrown from their seats in collision, providing speeds are not in excess of 55 to 60 miles per hour. Adaptable to all passenger cars, installation can be made without disturbing the interior.—National Safety Magazine.

The sittangus, an African antelope, has hoofs that spread far apart with every step, which makes it possible for the animal to walk on marshy soil without sinking.

True flight has been solved by only four species of the earth's creatures: insects, pterodactyls, birds, and bats.

Writers Are Honored

Royal Society Of Canada Awards Medals For Merit

Awards of medals to Col. William Wood of Quebec City, author of many volumes of Canadian history, Mazo de la Roche, Canadian author, and Dr. W. Lash Miller, professor of physical chemistry of the University of Toronto, were announced by the Royal Society of Canada.

Col. Wood will receive the J. B. Tyrrell medal, awarded annually for outstanding work in connection with the history of Canada. Miss de la Roche is to receive the Lorne Pierce medal for accomplishing in imaginative and critical literature some achievement of significance and conspicuous merit. The Sir Joseph Flavelle medal, awarded annually to a fellow of the Royal Society for original work in science or literature of a special or conspicuous merit goes to Dr. Miller.

Would Improve Grammar

Need For More Proper Use Of The English Language

Establishment of "a central authoritative body on the proper use of the English language" is suggested by the London, Ont., board of education in a resolution to be presented to the annual convention of the Urban Trustees' Association of Ontario.

The board's resolution said it was desirable use of English in Canada be improved from the standpoint of "grammar, enunciation and pronunciation," and asked the Canadian Broadcasting Corporation to establish an organization "upon which shall be placed the responsibility of deciding what is correct for Canadians in the matter of pronunciation of English words."

A Queer Old Custom

Feers Passing Through English Town Have To Donate Horseshoe

Many a king's horse has lost a shoe at Oakham, England, according to John L. Dowrick, manager of the American Express Travel Service, who reports that because of an old custom the castle there has the right to demand a horseshoe from every person who passes through the town. If any one refuses, a shoe can be taken from the horse. Queen Elizabeth gave one of the largest shoes in the castle, George IV. presented a seven-foot specimen of bronze and the present Duke of Windsor left one, but King George V. is not represented because he never passed through the town on horseback.

TESTED RECIPES

By Katharine Baker

JELLY COMES TO THE RESCUE
Quick Dishes For Busy Housewives

Perhaps you have always thought that quick-setting jelly powders could be used only to make dessert dishes or in a pinch, a molded salad. We are out to dispel that idea and here are some recipes which prove that because jelly has an infinite variety of uses which will endear it to the hearts of busy housewives. These packages of jelly in bright colors and various flavors can come to your rescue on numerous occasions when you feel you just can't make a meal out of what is left over and yet can't throw the scraps away.

Here are two delicious recipes that can turn the main course of any meal, company or otherwise, and yet they are so cheaply and easily prepared that it will astonish you.

FIQUANT TONGUE MOLD

1 package quick-setting lemon jelly powder
1 pint warm vinegar
2½ tablespoons vinegar
1 teaspoon salt
1 teaspoon scraped onion
3½ cups boiled tongue, finely chopped
2 cup dill pickles, finely chopped
1 cup mayonnaise
Dissolve jelly powder in warm water. Add vinegar and salt. Chill until cold and syrupy. Place in bowl of cracked ice or ice water and whip with rotary egg beater until fluffy and thick like whipped cream. Fold in onion, tongue, pickles, and mayonnaise. Turn into loaf pan. Chill until firm. Unmold. Garnish with crisp lettuce and radishes. Serves 10.

If you have chicken on Sunday as a rule, here is the perfect dish for Monday.

MILDED CHICKEN LOAF

1 package quick-setting lemon jelly powder
2 cups warm chicken stock, free from fat
1 cup chicken, cut in small pieces
1 cup celery, finely chopped
1 cup green pepper, finely chopped
1 teaspoon scraped onion
2 tablespoons pimiento, finely chopped
1 teaspoon salt
1 cup stuffed olives chopped
Dash of Cayenne
Dash of Worcestershire sauce
Dissolve jelly in warm stock. Chill. Combine remaining ingredients. When jelly is slightly thickened, fold in chicken mixture. Turn into loaf pan. Chill until firm. Unmold. Serve in slices. Or mold in ring mold and serve as salad garnished with mayonnaise. Serves 8.

**"AW DAD... I'M OLD
ENOUGH TO HAVE
MY OWN ROOM"**

Sanctuary from the hurts and puzlements of growing up. Security for prized possessions... every child needs this little private world... a room of his own.

You can easily make such a room with Gyproc Wall Board. It provides beautiful, pre-cast plaster walls that are really permanent. Gyproc is easily erected. It saws and nails like lumber. And it's FIRE-PROOF! Dad... why not give your children their own rooms NOW. Write us to-day and we'll send you complete details free.

Assets To Any Town

Modest Man And Go-ahead Type Are Equally Valuable

It is often said that it takes all kinds of people to make a world. And it's quite true. There's the big toad in a little puddle, or the big man in a small town or city who is always in the limelight, in the headlines of the newspaper and quite a lively figure about town. He has his good points and keeps the community pepped up. While some of his philanthropic acts may be a trifle exaggerated, he has no doubt, contributed considerably to the welfare of the community.

But don't overlook the silent type as the girls say. He's probably a man of moderate means who pays his bills. Including taxes, promptly, minds his own business, is law-abiding, contributes to charity as much as he can and while not a great booster of his city or town, he isn't a knocker. He, too, has his place in this world and is a valuable asset to the village, town or city in which he lives.

And there's always a chance that the modest man may come out of his shell and be a "big shot" with the rest of them.—St. Thomas Times-Journal.

Payment For Parentage

Believes Married Man With Children Should Have Larger Income

A famed California psychologist recommended to parents and teachers of the United States payment for parentage—at least a child.

"Society," said Dr. Paul Popenoe, of Los Angeles, director of the Institute of Family Relations, "must be prepared to equalize the burden of parenthood by a proportional family wage which will increase the salary of the white-collar worker—whether man or woman—with the birth of each child."

"The present erroneous concept of equal pay for equal work—which merely means that a high school principal with a wife and four children is expected to live on the same salary that would be paid a bachelor, has proved to be too destructive of family life to be continued," he told 1,200 delegates from every state to the National Congress of Parents and Teachers.

"It puts a high premium on sterility and punishes people for having children."

Furs Are Scarce

Forty Per Cent. Reduction In Trappers' Returns This Year

Scarcity of rabbits in Canada's northland during the past winter will cause a drop in Canada's fur harvest this year of approximately 40 per cent., William Levine, president of Edmonton Fur Auction Sales Company, stated.

"Rabbits, he said, were the sole food of many of the fur-bearing animals and this year were at the bottom of their prevalence cycle. He said the fur harvest was usually worth about \$3,000,000 a year to northern and western Canada fur men.

Water from the Atlas mountains sinks through the sands of the Sahara desert to an impermeable strata of clay and vast reservoirs underground, and breaks through the surface as springs.

Saint Bernards Sent To Tibet

Have Been Inactive At Swiss Monastery Since Accident Last Year

Banished from their rescue work of generations in the Alpine nooks, the pack of Saint Bernard dogs from the famous Swiss monastery of that name sailed from Marseilles to begin life anew in the Himalayas of Tibet. They have been bred and used at the pass for centuries.

After a tragic accident last year when a little girl was killed by the dogs near the Hospice of Grand Saint Bernard Pass, the dogs had been condemned to inactivity. They were not allowed to rove freely as before, carrying food and help to stranded wayfarers, and instead a great cage had to be constructed at the monastery where the dogs were confined. They became an object of curiosity, attracting hundreds of visitors as if to a zoo.

They were always affectionately attended by their guardian and servant, Brother Cyrille, who declares that an injustice has been done to them and that the dogs are not dangerous.

It was with great joy that Brother Cyrille learned that monks had constructed a refuge at 5,000 meters altitude near Lhasa in Tibet and that the monks eager to accept the services of the Saint Bernard dogs to do relief work in the Himalayas, Brother Cyrille sought permission of his Prior to take his dogs to Tibet.

Laying In Supplies

U.S. War Department Has Many Tons Of Tin Stored

The United States, too, is laying in supplies in case of war. For the first time in recent history the U.S. War Department is quietly building up substantial stocks of tin. At the moment the metal, which is being stored temporarily in an Army clothing warehouse in Brooklyn, N.Y., amounts to about 1,500 short tons, worth some \$1,200,000. Reports are that after the new military appropriations go through the total may climb as high as 20,000 tons. Behind the move is this fact: practically all tin vital in munitions manufacture, must be imported, and the U.S. is afraid an emergency might cut it off from supplies.

Tunnel Under Channel

Prime Minister Chamberlain Is Opposed To Idea

The perennial dream of a tunnel linking Great Britain and France was raised in the British House of Commons as a possible avenue of wartime provisioning, and was promptly rejected by Prime Minister Chamberlain. "Does not the Prime Minister think that a tunnel under the Channel would prove an excellent protection for the food supplies of this country in the face of any air future menace?" Harry Day, Labor, asked. Mr. Chamberlain dismissed the question with a brief, simple, "No sir."

Charlie McCarthy has become the No. 1 attraction on the air and Snow White heads the current list of motion pictures in popularity. People are getting tired of people.

In spite of the many shapes and sizes of birds, not one bird on earth is capable of chewing.

WHAT HO!

—By—
RICHARD CONNELL

By Arrangement With Thomas Allen, Publisher, Toronto.

CHAPTER XI.—Continued

"They're a good seller, sir," said Henry. "No local masquerade, rain or paganite is complete without one. Why, sir, we were represented by no less than six at the last Charity Ball of the Sherry Merchants' Guild. He took a garment from a full rack.

"Just slip this one on for size, sir," he said.

With the aid of Henry, Ernest got into the ghostly outfit.

A cunning contrivance of paper mache fitted over his head and shoulders and his features were concealed inside the imitation throat. Just above the top of his head the false neck ended abruptly and a trifle bloodily, as if it had been severed by one clean stroke of the executioner's ax.

Ernest surveyed himself in a peer-glass through two eye-holes cut in the neck and craftily masked by a lace flair. He found himself a fearsome looking object.

"Your head, sir," said Henry.

He handed Ernest a realistic emphy of the head of the decapitated Sir Rufus Bingley, complete with raven hair, moustachios and a fanatic's wild eyes.

"It is carried under the left arm, sir," said Henry.

"Thank you."

"The rental fee is a pound a night, sir."

"I'll take it," said Ernest and handed Henry a pound note from his fast dwindling funds.

He started to leave the shop.

"Beg pardon, sir," said Henry, "but where shall I send your street clothes?"

Ernest turned back.

"Perhaps I'd better put them on," he said.

"Most of our patrons do, sir," said Henry.

It was midnight in Bingley Castle and elsewhere. It was as dark as the inside of a Zulu. Storm clouds blotted out the moon and a cold, hungry wind keened through the pine trees. On such a night witches saddle up their broom-sticks and owls cower in their nests, afraid.

Mewed in his tower, Ernest Bingley awaited the witching hour. For warmth he paced up and down. He caught a glimpse of himself in a mirror, and under his ghostly garb goose-pimples started up.

"I must be good if I frighten myself," he muttered.

Like a knell, the village bell counted out the day with twelve solemn bonges. Ernest picked up his spare head from the bed, tucked it under the correct arm, stole out of his room and started for the haunted chamber in another wing where Master Mervin Wyncoop lay in pie-bound slumber.

As he turned a corner, and like a puma on the prowl, crept down a long passage-way, tunnel-like and poorly illuminated, Ernest saw something that congealed him in his tracks. Coming slowly toward him was a headless ghost.

No man; they saw, is more surprised than the man who comes face

to face with himself. But this was no mirrored reflection. The advancing apparition was taller than Ernest, far taller, as tall, for example, as the late Sir Rufus Bingley.

Ten paces from Ernest the ghost halted like a soldier coming to attention. Ghost-faced ghost, Ernest was frozen, riveted, lashed to the spot. He wanted, very much, to say to the holder of the ghost concession on whose province was poaching,

"Please don't be sore, Sir Rufus. It's only a joke. I'm just a Number 2 ghost. You're still head haunter around here."

But his tongue was as traitorous as his legs. It had turned to a potato chip and all he could manage was a faint "Scat!"

Then his limbs came to life, and he turned and ran. He heard a padding of ghostly feet. Twisting around he saw that the spirit was not gaining on him. It was running, no doubt about that, but in the opposite direction.

With popping eyes, Ernest beheld the other wraith wrench open the door of the haunted chamber and vanish into that historic room.

Instantly the air was cut to shreds by a hullabaloo of piercing screams, and the voice of Master Mervin filled the night.

"Mommamma, Mommamma, spooks! Mommamma! Spooooooooks!"

Ernest Bingley took absolutely no comfort just then in the thought that his purpose had been accomplished, bravely. It seemed probable that the shade of Sir Rufus had no scared the embryo hoodlum that Master Mervin would quit the castle in his pajamas, and grace the scene no more.

Ernest's most immediate thought was to put distance between himself and the grisly thing he had seen in the passage. To this end he went on, blindly, for he was in the grip of primitive emotions. He did not know where he was going but he was definitely on his way.

Bed-room doors began to pop open. The Duke of Beddingdon seeing Ernest flit past, cried "I've got 'em again," and collapsed beside his brandy bottle. The Countess of Bathberry saw enough to give her material for a full page story before she swooned. On went Ernest.

Some historians aver that the architect who laid out Bingley Castle expired immediately thereafter of blind-staggers. Ernest found no evidence to the contrary as he played tag with the specters in the zig-zag, cross-cross, cross-quilt corridors.

How he found himself whizzing across the Great Hall, hurling sofas and tables a la Fin McCool, Ernest did not stop to inquire.

A single night-light in a sconce, feeble as an overworked glow-worm, imparted to that cavern of a room a lurid demi-gloom.

Ernest dashed toward the door leading to the library with some idea of snatching a spear from one of the figures in armor with which to defend himself. He ripped open the door. Something hit him. He bounced back and landed on the floor in a knee-chest position. Standing over him was the object with which he had collided, the ghost.

Instinctively, like a felled fighter, Ernest scrambled to his feet and swung wildly at the ghost. Something had whirled past his ear. The ghost had thrown its head at Ernest. Ernest returned the compliment and hurled his head at the ghost. It came off the ghost's ribs, and Ernest heard a fleshly sounding grunt. End of Round One.

Round Two. Battling Bingley and Kid Ghost meet in ring-center and exchange long left and right wallops to the jaw. As neither of them has a head, no damage is done. Bingley shifts his attack and lands a hard one-two-kick on the phantom's shins. They clinch. They wrestle. They break. Ghost jabs ivory book-end to the Iowa's boy hip. Ernie counters with an ash-tray to the body. Ghost grunts, and grabs vase from table and biffs the game mid-west scrapper on the Adam's apple, or where his Adam's apple probably is.

The Battler is staggered. Ghost cracks down with five-fongs and Bingley is down. One, two, three, four, five—he's up. He's down. He's up. How that lad can take it, Bingley rallies and drives in with two hard butts to the belt-line. Now the Ghost is groggy. Bingley floors Ghost with a stiff butt to the mid-section. One, two, three, four, five, six, seven, eight, nine, ten—he's out—and Bingley wins in two minutes and thirty seconds of the second round.

The long ghost was licked, and knew it. Prone on the floor of the Great Hall he whimpered.

"Spare me, Sir Rufus, spare me. I only did it to show up that rich American hoodlum, Ernest—"

"Duff-Hooper!" Ernest cried.

"Yes, Sir Rufus," said Ernest.

"I'm not a ghost. I'm Ernest Bingley."

Wrigley's Gum helps you keep fit!
Keeps the stuffy feeling after eating. Cleanses crevices between teeth, too... assures sweet breath. A simple aid to health! Buy some now! Small in cost but big in benefits! Enjoy it after every meal—millions do!

"Oh, I say!" said the captain, weakly.

"I hope I didn't hurt you," Ernest said.

"Knocked my wind out, that's all!" He lay, heaving and panting, a most ashamed and sheepish ghost.

"How do you feel now?" asked Ernest after a moment.

"Like a bally imbecile," replied Duff-Hooper.

"I guess," said Ernest, with a victor's magnanimity, "you scared me about as much as I scared you."

"If the fellows at the Cavalry Club hear of this I shall be sent to Coventry," growled the captain.

"They won't hear about it from me," Ernest assured him.

"That's white of you, old chap."

The captain hoisted himself up on his shaky legs.

"No hard feelings," said Ernest.

"Right-hot! Mind if I sit down?"

"I'm a bit winded myself," said Ernest.

The two ghosts sat side by side on a sofa.

"Fancy two grown men losing their heads like this," said Duff-Hooper. "I mean being thrown into such a panic. Of course neither of us believes in this ghost twaddle."

"My head doesn't," said Ernest, "but my legs do."

"Isn't that a decanter of whiskey at your elbow?"

"Yes."

"Pass it to me, please," said Duff-Hooper. "I need a bracer."

He unbuckled his bogus neck and shoulders, emerged from his super-natural shell, and poured himself four fingers of spine-stiffener.

"Bit of a boomerang, what?" he said. "My setting out to scare you, I mean. I'm most frightfully sorry."

"Forget it."

"Rosa will think me a fearful swine."

"She need not know about it."

"Thanks."

"You're welcome."

The captain gave himself another injection of confidence from the decanter.

"If the lads at the club could see me now!" he said. "What a picture!"

"I'm not in the least superstitious, really. But you did give me a nasty turn—"

(To Be Continued)

Fear Police Dogs

Arab Criminals Have A Great Respect For Them

Four more South African police dogs have been sent by liner to Palestine, where they will put the fear of Allah into Arab criminals. The dog training depot of Quagga-port, Pretoria, has a wonderful record, and seven of their dogs are in service at present in Palestine. Detective Lance-Sergeant M. M. S. Kelch and Detective Lance-Sergeant Z. M. Pretorius, of the South African police dog depot at Pretoria have been seconded for service with the Palestine police for one year and have sailed with the four dogs. Two members of the Palestine police force took an intensive course of dogmasters a few years ago and returned to Palestine with the first South African police dogs. These inquisitive animals were regarded by superstitious Arabs as something almost supernatural and criminals in Palestine have a profound respect for them.—Brandon Sun.

Would Widen Panama Canal

Canadian University Professor To Plan Preliminary Studies

Dr. Donald F. MacDonald, professor of geology at St. Francis Xavier University, Antigonish, N.S., said he would accept an invitation of the United States Government to plan preliminary studies toward enlargement of the Panama canal. From 1911-13 Dr. MacDonald served with the Panama Canal Commission as advisor on engineering geology.

British wages go 25 per cent. further than German wages, 33 per cent. further than French wages, and 250 per cent. further than Russian wages.

The Last Minute Effort

Cramming For Examinations Is Only Waste Of Time

Students who lay store by the process of making a frantic, last-minute effort to review what they are supposed to have studied leisurely and systematically during the scholastic term, in an effort to cope with examinations, may be wasting time, states the Woodstock Sentinel-Review.

Some students collapse under the strain of cramming. A Toronto physician says it is bad for the nerves to study during examination time. His advice is that it is better to go to some entertainment, a dance or the movies. He points out that it can be proven scientifically that one-half of what you hear or read is forgotten in half an hour; after nine hours, two-thirds is forgotten; after six days, three-quarters forgotten; after one month, four-fifths forgotten. Apparently the only way to fix information in the memory is to take notes on what is heard or read and then refer to those notes once a month. This doctor advises students to obtain old examination papers and test themselves by writing them out, on the basis that the only way to learn how to do anything is to do it. For example no one could learn to play golf or any other game by reading about it.

With regard to the futility of cramming for examinations, it is pointed out that no tennis player on the eve of an important match, would get up at 6 o'clock in the morning and practise until the game was on.

The tendency of the part of students to believe that they can overcome neglect of studies in the early part of the term by studying intensively on the eve of examination is general. Wisdom and experience, however, seem to emphasize that there is no virtue in that expedient. Moderate study throughout the whole term and moderate reviewing of notes are considered the best way to offer the best assurance of success. The cramming that robs the students of sleep for nights before the test is often the surest way to court failure.

Japan Losing Lily Trade

Ships Are Now Carrying Munitions For War In China

The Sino-Japanese war is encouraging lily cultivation in the continent to a greater extent than ever before. For years Easter lilies have been coming to Canadian and United States florists and seedsmen, to a large extent, in Japanese refrigerator-equipped vessels. With silk, lily shipments were an important source of income for Japan.

Now, with the development of the Japanese aggression in China, ships which were used in transporting Easter lily bulbs from Japan to America are now carrying men, guns, munitions and the many necessities of war to China.

Lack of paper ship facilities and lack of experienced lily growers in Japan's fields are beginning to make themselves noticeable in lily imports.

Years ago many of the lily bulbs, like potatoes with us, formed a source of food supply in Japan and China. Then an Englishman in the East began sending lily bulbs back home. The people of Japan and China soon learned that the bulbs had a money value. The mountains were scoured; many species became scarcer and scarcer from year to year.

It was then, when the source of supply began to diminish, that the Japanese and Chinese began to cultivate them. Now thousands of persons, in both of these countries, are engaged in the pursuit of raising lilies for American florists and gardeners.

Most lilies can be grown from seed. For commercial culture, however, increase is often made from small bulbs growing out from the parent bulbs or along the flower stalks, or from "scales" taken from the large bulb. These scales are placed in sand and from these small bulbs form. Varying periods of time are required to develop blooming-size bulbs—one to three years.

The Longest Word

What is the longest word in the English language? The word most frequently cited is "honorificabilitudinitatibus," according to Ripley's Big Book; which is to be found in Shakespeare's "Love's Labour Lost." Act 5, scene 1, line 44. To the Puritan divine, Bayly, we owe "incomprehensibleness." Doctor Benson is credited with "antidisestablishmentarianism."

Fortipus—When I started in life, young man, I worked twelve hours a day.

Youthful—Yes, but in these rapid times anyone who took twelve hours to day a day's work would get the gate.

New Type Of Stoker

Planning For The Wider Use Of Canadian Coal

A committee of three will be appointed by the Western Canada Fuel Association to approach the fuel research branch of the federal department of mines and stoker manufacturers with a view to developing stokers adapted to burning of Canadian coals, the association decided at its 18th annual convention at Lethbridge.

"Co-operation between the coal industry, the railways and stoker equipment concerns to the end that wider use of Canadian coals may be enjoyed by Canadian consumers" was urged.

It was suggested the association confer with the railways with the purpose of co-operating for the best interests of both.

In view of the sale of wood in Winnipeg to the exclusion of coal, it was resolved to petition governments to conserve the forest wealth throughout the west.

Argument Was Settled

The skipper and the engineer were arguing. The latter said that steering a ship was much easier than looking after the engines, and the captain said looking after the engines was child's play compared with steering. They decided to settle the argument by changing places.

After ten minutes the captain had to admit he was beaten.

"Mac," he shouted, "I can't get the engines to start!"

"That's all right," replied the engineer, "ye needna bother—we are aground."

Old Temples Discovered

Three temples of the sixth century, B.C., have been discovered in the Baharia Oasis in middle Egypt. Statues and vases were found and drawings and inscriptions on the walls are well preserved. The temples were closed in the Roman period.

The First In History

Spanish Government Is Operating A Submarine Mail Service

Probably the first submarine mail service in history is operating between Catalonia and government Spain proper. The extraordinary transportation means is necessary because Catalonia has been severed from the rest of government territory by the insurgent push to the Mediterranean. The government finance ministry has ordered a special issue of submarine stamps for the service.

Courtesy is that which keeps you smiling while the guest stands holding open the screen door and lets the flies in.

Whales are extinct in the waters surrounding Newfoundland, Greenland, and Spitzbergen, where they were very numerous at one time.

LOCALS

Mr. and Mrs. S. Hlynka and children spent last Sunday with Mrs. Hlynka's parents in the Vegreville district.

For a real nice inexpensive outing attend the Social Credit picnic in the Albert district June 22nd.

A very fine sample of weather was supplied for the Sports Day in Irma on June 15th.

Mrs. Edwin Sanders is away on a visit with her parents Mr. and Mrs. R. S. Fitzpatrick at Holyoke, Alta.

Mrs. V. Beacock with a party of friends visited in Irma last Saturday evening.

Mr. James Sharkey spent last week-end at his home here returning to Edmonton Monday morning.

Rev. Fr. McGrane spent last week in Calgary and other points in the south of the province.

Mr. and Mrs. Jas. Wood had a visit last week-end from Mr. Wood's brother, John of Calgary, whom he had not seen for the past forty years.

Mr. John Fleming of the Albert district left on the Flyer June 14th for a trip to his old home in the north of Ireland.

Miss Helen Kuzky returned to her home at Vegreville, Alta., after a lengthy visit with her brother-in-law and sister, Mr. and Mrs. S. Hlynka.

The Court of Revision for the Irma school district was held on Monday evening, June 13th when a number of appeals were dealt with.

Leave your business worries behind and come and join in the games and races at the Social Credit picnic on the Albert picnic grounds, June 22.

Mr. and Mrs. P. J. Hardy and Mrs. C. T. Hill of Edmonton, motored to Irma last Saturday for a visit over the week-end, returning Tuesday morning.

Mr. and Mrs. James Carter went to Red Deer last week to visit Mrs. Carter's family. Mrs. Carter and the children will be staying in Red Deer for a few weeks.

PUBLIC NOTICE

Co-operation is requested by the farmers of the Municipal District of Battle River No. 423 regarding noxious weeds. Any farmer knowing of noxious weeds on road allowance to report same to his councillor, also weeds not known to him to report same also to his councillor, who will in turn make the necessary arrangements with the Weed Inspector for their control.

Chas. Wilbraham,
Sec.-Treas. M.D. Battle River,
No. 423, Irma, Alta.

PUBLIC NOTICE

Municipal District of Battle River

In compliance with section 63 of "The Municipal Districts Act" being chapter 41 of the statutes of Alberta 1926 with amendments up to and including 1938—

A public meeting of the electors of the Municipal District of Battle River No. 423 will be held in Kiefer's Hall, Irma, Alberta, at 2 o'clock in the afternoon of June 29th, 1938, for the discussion of Municipal Affairs.

Charles Wilbraham,
Secretary-Treasurer.

FOR SALE OR RENT — 6-roomed house. Personal interview in Irma June 18-20. — S. V. Schonert. 10-17c

COMPETITION FIXES PRICES TO PRODUCERS AND OIL CONSUMERS

Crude oil produced in one field may and does influence the price of crude oil produced in another and if any evidence of it was needed, refer to the case of Alberta and Manitoba. F. G. Cottle, Chief Auditor of the Alberta Board of Public Utilities Commissioners, showed how Montana production had affected the price on the Turner Valley output.

Montana oil cannot compete with Turner Valley in supplying Calgary refineries because Turner Valley is much nearer to Calgary and offers the advantage of the lower transport costs. But Turner Valley is producing more crude than Calgary refineries can use and so has to ship part of its output east to refineries at Moose Jaw, Regina, and Winnipeg.

Thus the price of the Turner Valley production in the field has to be at a level which will enable the crude to be laid down at these distant points, (including freight) at prices which will be competitive with the prices at which Montana crude can be laid down. As Mr. Cottle pointed out, Montana crude cannot compete with Turner Valley crude at Calgary, but it can at other points.

Similarly Turner Valley crude actually affected the price of Montana crude right in Montana although it never got into that state in commercial quantities. Perhaps the issue in which the prairies are most interested is that Turner Valley producers, the pipe lines, refineries, and railways, have adjusted their operations so that western consumers are able to buy their products at substantially lower prices than would have prevailed had the Alberta field not been developed. Producers at the same time are getting a fair price for their output.

TENDERS WANTED

Tenders will be received by the Secretary, Crescent Hill School District for painting the outside and kalsomining the school. Tenders to be in the hands of the secretary not later than June 29. The lowest or any tender not necessarily accepted.

W. T. Steele,
Secretary.

As a convenience to the Irma Hockey Club the Ladies Aid changed the date of their garden party at A. E. Blakley's to Friday afternoon and evening, June 17th.

A gathering of social character at Mrs. Parker's was a feature of Saturday afternoon, the occasion being her birthday. A "Birthday Tea" was given to augment the allocation funds of the local W.C.T.U. The slogan of "1c a year" resulted in everyone present placing one cent for each year of her age in the treasury. There was an informal program consisting of a few readings, a song by children, a song by adults, a Peace Dialogue and a little Temperance Play which was followed by discussion.

The serving of lunch brought this day of "Happy Returns" to a close with the singing of "God be with you till we meet again."

Sports July 1

A Sports Day will be held in Irma on Friday, July 1st, under the auspices of the Loyal Orange Lodge No. 2066. A full program of sports, including Baseball, Softball, Races, Horseshoe Tournament, etc. Refreshment booths on the grounds. Commencing at 11 a.m. prompt. Admission to grounds: 25c, children under 12 free; cars free at owners' risk. Band in attendance all day. Dance in the evening in Kiefer's Hall, admission 25c. Good music. Watch for bills.

Committee: — G. Fenton, Jas. Stead, V. Hutchinson.

Garden Social

Don't forget the Garden Social at the home of Mr. and Mrs. F. Thurston on Wednesday June 22nd. Bell Games, Horseshoe Game and races for the children. Ice Cream and Soft Drinks. Supper will be served at 25c and 15c for children. Come and spend a pleasant time with your friends. Sponsored by St. Mary's W. A.
